| <p>1. <input checked="" type="checkbox"/> The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p> | | | |

Continuation of 11. does NOT place the application in condition for allowance because: Baker (US 6754505) discloses an initial sequence of power control step sizes (see col. 4 lines 53-55). The initial power control is selected based on the anticipated variations, where the power control error is likely to be greatest at the start of a transmission or after an idle period, the optimum power control step size will be larger than that used for normal operation (see col. 4 lines 26-31). The large control step size is selected at the start of transmission or after an idle period. In col. 1 lines 32-36, Baker discloses adjusting the transmission power at the BS based on the received parameter from the MS.
